Name of Scheme	Religare Arbitrage Fund		Religare Contra Fund	
Investment Objective	To generate income through arbitrage opportunities emerging out of mis-pricing between the cash market and the derivatives market and through deployment of surplus cash in fixed income instruments.		To generate capital appreciation through investment in equity and equity related instruments. The Scheme will seek to generate capital appreciation through means of contrarian investing. Contrarian investing involves picking 'neglected stocks' with strong asset values as well as focusing on high potential under owned sectors. The aim is to have a first mover advantage by investing into out of favour sectors/stocks thus increasing out-performance prospects. This can be done by monitoring stock/sector ownership and relating it to the fundamentals of the sector with an objective to get out of over-owned stocks and get into under-owned ones.	
Asset Allocation Pattern	Type of Instruments	Normal Allocation (% of Net Assets)	Type of Instruments	Normal Allocation (% of Net Assets)
	Equity and Equity related instruments	65-80%	Equity and Equity related instruments	65-100%
	Equity Derivatives including stock futures and stock options#	65-80%	Debt & Money Market instruments	0-35%
	Money Market instruments / Debt instruments** and Fixed Income Derivatives	20-35%	*Debt instruments may include securitized debts (excluding foreign securitized debt) upto 100% of the debt component. Maximum exposure to derivatives shall not exceed 50% of the Net Assets subject to the limits as specified by SEBI, from time to time. However, the cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the scheme.	
	** including securitized debt (excluding foreign securitized debt) upto 30% of net assets of this scheme. * The exposure to derivative shown in the above asset allocation tables is the exposure taken against the underlying equity investments and should not be considered for calculating the total asset allocation. The idea is not to take additional asset allocation with the use of derivatives. # The notional value exposure in derivatives securities would be reckoned for the purposes of the specified limits, the margin money deployed on these positions would be included in the Money Market category. The maximum derivatives position will not exceed 80% of the portfolio (i.e. net assets including cash). However, the cumulative gross exposure through equity, debt and derivative positions shall not exceed 100% of the net assets of the scheme. The maximum fixed income derivative position will not exceed 35% of the portfolio (i.e. net assets including cash).

2. Investment Strategy of Schemes

i. Religare Tax Plan

The Scheme intends to invest across market cap and sectors utilizing bottom up approach. The Scheme will have reasonably diversified portfolios without the risk of being overly diversified. The fund house will aim to have concentrated well-researched portfolio, which would be around 20-50 in terms of the number of stocks per portfolio. The fund house will aim not to have very large portfolios which can lead to over diversification and reduction of investors' returns.

ii. Religare Growth Fund

The Scheme intends to invest in Equity and Equity Related Instruments of companies across market cap and sectors utilizing bottom up approach. Bottom up approach is an investment approach which deemphasizes the significance of economic and market cycles. This approach focuses on the analysis of individual stocks. In bottom up approach the focus is on specific company rather than on the industry in which that company operates or on the economy as a whole. The Scheme will have reasonably diversified portfolios without the risk of being overly diversified. The Scheme will aim to have well-researched portfolio, which would be minimum 31 stocks in the portfolio. The fund house will aim not to have very large portfolios which can lead to over diversification and reduction of investors' returns.

iii. Religare Arbitrage Fund

The fund manager would identify opportunities for mis-pricing and execute the deals simultaneously in both the markets. In terms of the SEBI guidelines, the scheme shall not short sell in the cash market at all times.

The debt component of the scheme would be invested in debt securities and money market instruments. The duration of the debt portfolio would primarily be managed with a view to generate income with minimum interest rate risk.

iv. Religare Contra Fund

The investment objective of the Scheme is to generate capital appreciation through investment in equity and equity related instruments. The Scheme will seek to generate capital appreciation through means of contrarian investing.

The Scheme intends to identify potentially undervalued stocks across sectors utilizing both top down and bottom up approach and believes in incubating such stocks for a while before they find favour with rest of the market. In the present market, 80% of the investment portfolios look alike, which result in reducing the potential of generating above market returns. This will be possible only through a first mover advantage.

The Scheme aims to:-

- have a first mover advantage by investing into out of favour sectors/stocks;
- monitor stock/sector ownership and relate it to the fundamentals of the sector. Get out of over-owned stocks and get into under-owned ones. The proven methodologies of fundamental analysis will be used for picking sectors and the stocks.

The Fund will also try to proactively identify new investment themes before a majority of investors and examine the play on the relative attractiveness of mid caps and large caps and adjust the market cap of the portfolio towards higher return potential.

The Scheme will have reasonably diversified portfolios without the risk of being overly diversified. The fund house will aim to have concentrated well-researched portfolio, which would be around 20-50 in terms of the number of stocks per portfolio. This will vary according to the size and mandate of individual schemes. The fund house will aim not to have very large portfolios which can lead to over diversification and reduction of investors' returns.

v. Religare Equity Fund

The Scheme intends to invest in Equity and Equity Related Instruments of companies across market capitalisation and sectors utilizing a focused stock

selection approach. The Scheme will have reasonably focused portfolio with not less than 15 stocks and not more than 30 stocks in the portfolio. The Scheme would invest in companies from not less than 5 sectors and not more than 10 sectors, to ensure sufficient diversification. The definition of sectors (for the purpose of this Scheme) would be at the "Industry Level" in the AMFI classification. The Scheme will not have less than 2% exposure to a single stock (excluding IPO investments), at the time of investment, and not more than 10% exposure at the time of investment. The Scheme's strategy is to balance diversification and concentration risk, by having a focused diversified portfolio of stocks.

To pursue its investment objective and manage volatility, the fund will pursue an active hedging strategy whereby it will take suitable short positions in derivative instruments viz. Index Futures & options and Individual stocks' futures & options. Any point of time the short position in derivatives will range between 0-50% of the net assets of the fund. Further the net long position (long positions net of shorts) will always be equal to or higher than 50%. Thus even in such extreme situations, of 100% long exposure combined with 50% exposure to short derivatives, the net exposure to market will be 50%. Thus the fund will use futures and options to hedge the values of its investments against changes resulting from market conditions.

The fund will adopt a stock selection process by using its proprietary system to rank stocks within each sector according to their potential expected return. Based on its rankings, it then uses an optimization process to select securities in an attempt to:

- Maximize expected returns of the fund
- Minimize volatility
- Diversify the assets of the fund among the various industries, sectors, and individual securities

The Scheme may hold a limited number of additional securities at times such as when the Fund Manager accumulates new position phasing out and replacing existing positions or responding to exceptional market conditions.

vi. Religare Mid Cap Fund

Investment objective of the Scheme is to provide long term capital appreciation by investing in a portfolio that is predominantly constituted of Equity and Equity Related Instruments of Mid Cap Companies.

The Scheme will invest primarily in Equity and Equity Related Instruments of Mid Cap Companies. The Scheme intends to select equity securities utilizing bottom up approach. The Scheme will have reasonably diversified portfolio without the risk of being overly diversified. The fund house will aim to have concentrated well researched portfolio, which would be around 20-50 in terms of the number of stocks in the portfolio.

Mid Cap Companies means companies which have a market capitalisation of less than the last stock of S&P CNX Nifty and more than 5% of the market capitalisation of the last stock of the S&P CNX Nifty. The market capitalisation will be reviewed on a quarterly basis and the portfolio allocation will be rebalanced accordingly within one month from the date of review.

The Scheme will have reasonably diversified portfolio without the risk of being overly diversified. The fund house will aim to have concentrated well-researched portfolio, which would be around 20-50 in terms of the number of stocks per portfolio. This will vary according to the size and mandate of individual schemes. The fund house will aim not to have very large portfolios which can lead to over diversification and reduction of investors' returns. Diversification will also be achieved by spreading the investments over a range of industries/sectors.

vii. Religare AGILE Fund

The portfolio is constructed on the basis of the performance of stocks which are derived from the first level scrutiny as given below:

1. The market capitalization of the stock chosen should not be less than the market capitalization of the last stock of S&P CNX Nifty;
2. The floating stock of the company should not be less than the least floating stock of the S&P CNX Nifty. For this purpose floating stock means the stock which is not held by the promoter associate entities of such companies;
3. The stock should have a price history of at least 1 year before the date of investment;
4. The industry represented by the stock should be present in the composition of S&P CNX Nifty. The definition of industry (for the purpose of this Scheme) would be at the "Basic Industry" in the AMFI classification.

Out of the resulting list the model picks the top 11 stocks and investments are made in them on equal weighted basis. 9% of the total corpus is invested in each of these 11 stocks and the remaining 1% will be kept in debt and money market instruments.

The portfolio is reviewed on a monthly basis and changes are made based on the data generated by the model. The change in the portfolio involves both sale and purchase, both partial and complete, of the existing stocks and purchase of new stocks, if any. The individual weightage of each stock at the time of investment will always be 9% and the debt and money market instruments portion of the corpus will equal 1%.

viii. Religare Banking Fund

The investment objective of the Scheme is to generate long term capital growth from a portfolio of Equity and Equity-Related Securities of companies engaged in the business of banking and financial services.

The Scheme intends to invest at least 65% of the portfolio in the constituents of CNX Bank Index. The remaining upto 35% of the portfolio will be invested in companies from the banking and financial services sector, which does not form part of CNX Bank Index utilizing the bottom up approach.

ix. Religare Business Leaders Fund

The investment objective of the Scheme is to generate long term capital appreciation from a portfolio of equity and equity related instrument including equity derivatives of companies which in our opinion are leaders in their respective industry or industry segment. The fund is benchmarked against the S&P CNX Nifty. RBLF is intended to meet the needs of the long term investor and is intended to be an all weather portfolio and suitable in all economic and market conditions. The fund will invest in companies which in our opinion are leaders in their respective industry or industry segment. Leaders typically display the following characteristics:

- Better pricing power.
- Superior cost structure/efficiencies.
- Significant and sustainable competitive advantages such as technology, execution etc.
- Better access to capital.

These advantages are then reflected in:

- The company ranking among the top 3-5 in terms of market share in industry or industry segment.
- Margins better than industry or industry segment average.
- A return on equity better than industry or industry segment average.
- Growth rates better than industry or industry segment average.

It is not necessary that the company will possess all of the above attributes but we would typically expect it to possess at least one or more of the above attributes.

Companies that are business leaders would be expected to do better than others in their industry in all economic environments in terms of growth, margins and profitability. Due to their inherent strengths, they display greater resilience than others during difficult times for their industry or for the economy. When the economy or industry is going through good times, they would benefit from their leadership position but their profit growth and stock prices might not outperform lesser companies in the industry. The ability of business leaders to survive the hard times and thrive in good times make them an attractive long term investment proposition.

x. Religare PSU Equity Fund

The scheme seeks to generate capital appreciation by investing in Equity and Equity Related Instruments of companies where the Central / State Government(s) has majority shareholding or management control or has powers to appoint majority of directors. The fund seeks to invest atleast 65% of its assets in the constituents of the BSE PSU Index. In addition, upto 35% of its assets may be invested in PSU companies, which do not form part of BSE PSU Index. The fund manager will select stocks utilizing the bottom-up approach. In addition, he will also take a top down approach to manage risk. The fund manager may continue to hold companies in the scheme which subsequently may get privatized or where the Government shareholding gets reduced through the process of disinvestment. The portfolio of the scheme will be reviewed and rebalanced on an on-going basis.

The Fund house, to select stocks uses a proprietary stock categorization system for all its schemes. The objective of the system is to enable us to identify stocks that are likely to be the best investments within our universe. Each category of stock has a description of fundamental attributes that we expect the company to possess. However, in case of Religare PSU Equity Fund, the fund manager may select stocks outside of the stock categorization system in order to reflect the mandate of the fund to own only public sector companies.

xi. Religare Infrastructure Fund

The Scheme will invest primarily in Equity and Equity Related Instruments of companies in the infrastructure sector. The Scheme intends to select equity securities utilizing bottom up approach. Bottom up approach is an investment approach which deemphasizes the significance of economic and market cycles. This approach focuses on the analysis of individual stocks. In bottom up approach the focus is on specific company rather than on the industry in which that company operates or on the economy as a whole. The Scheme will have reasonably diversified portfolios without the risk of being overly diversified. The Scheme may also invest a small portion of its corpus in debt and money market instruments to meet its liquidity requirements.

Infrastructure sector means companies engaged directly or indirectly in infrastructure development & growth of Indian economy. Same can be listed as follows:

- Banks, Financial Institutions & Term lending Institutions
- Airports
- Cement & Cement Products

- Construction & construction related industries
- Electrical & Electronic components
- Engineering
- Energy
- Capital Goods & Products
- Metals & Minerals
- Ports
- Power and Power equipment
- Road & Railway initiatives
- Telecommunication
- Transportation
- Infrastructure including Housing & Commercial Infrastructure
- Oil and Oil Related Sectors
- Earth Moving Equipments
- Real estate
- Any other sector directly or indirectly related to infrastructure creation/development in the economy.

Please note that above list is only indicative and not an exhaustive and can undergo changes based on future reforms and developments.

xii. Religare Mid N Small Cap Fund

Investment objective of the Scheme is to provide long term capital appreciation by investing in a portfolio that is predominantly constituted of Equity and Equity Related Instruments of Mid and Small Cap Companies.

The Scheme will invest primarily in Equity and Equity Related Instruments of Mid and Small Cap Companies. The Scheme intends to select equity securities utilizing bottom up approach. Bottom up approach is an investment approach which deemphasizes the significance of economic and market cycles. This approach focuses on the analysis of individual stocks. In bottom up approach the focus is on specific company rather than on the industry in which that company operates or on the economy as a whole. The Scheme will have reasonably diversified portfolio without the risk of being overly diversified.

The market capitalisation will be reviewed on a quarterly basis and the portfolio will be rebalanced accordingly within one month from the date of review.

Applicable only to Religare Infrastructure Fund and Religare Mid N Small Cap Fund

Policy on diversification: The Scheme will have reasonably diversified portfolio without the risk of being overly diversified. The fund house will aim to have concentrated well-researched portfolio. This will vary according to the size and mandate of individual schemes. The fund house will aim not to have very large portfolios which can lead to over diversification and reduction of investors' returns. Diversification will also be achieved by spreading the investments over a range of industries/sectors.

xiii. Religare Liquid Fund

The domestic debt markets are maturing rapidly with liquidity emerging in various debt segments through the introduction of new instruments and investors. The objective will be to allocate the assets of the Scheme between various money market and fixed income securities with the objective of providing liquidity and achieving optimal returns with the surplus funds. The actual percentage of investment in various money market and other fixed income securities will be decided after considering the economic environment including interest rates and inflation, the performance of the corporate sector and general liquidity and other considerations in the economy and markets.

The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments proposed to be invested in. The credit evaluation includes a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term/long term financial health of the issuer.

xiv. Religare Ultra Short Term Fund

The fund management team will allocate the assets of the Scheme between various money market and fixed income securities (predominantly short duration instruments) with the objective of providing liquidity and achieving optimal returns.

Since providing liquidity is of paramount importance, the focus will be to ensure adequate liquidity while seeking to maximise the returns. An appropriate mix of money market and debt instruments will be used to achieve this. The fund management team will carry out a rigorous in depth credit analysis of proposed debt/money market instruments on the following parameters,

- Quality of the instruments including the past records as well as financial health of the issuer.
- Macro economic condition prevailing in the country.
- Liquidity condition prevailing in the markets and factors affecting the liquidity.
- Interest rates movements.
- Liquidity of the security/instrument.

- Maturity of the instrument.
- Ratings provided on the instrument by rating agencies approved by regulators.
- Any other factors relevant in the opinion of the fund management team.

The fund is likely to have higher maturity than a liquid fund, which means the fund may have higher allocation to 6-12 months instruments (The fund could run a mark to market component slightly higher than a liquid fund). Also, the fund will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The fund will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.

xv. Religare Short Term Plan

The fund management team will allocate the assets of the Scheme between various money market and fixed income securities to generate returns and to provide adequate liquidity to the Scheme. Significant portion of the investments of the Scheme will be in instruments with a maturity profile short to medium, in line with the investment objective.

The fund will be actively managed and the fund management team will take an active view of the interest rate movement supported by extensive research, both qualitative and quantitative. The fund management team will carry out a rigorous in depth credit analysis of proposed debt/money market instruments on the following parameters,

- Quality of the instruments including the past records as well as financial health of the issuer.
- Macro economic condition prevailing in the country.
- Liquidity condition prevailing in the markets and factors affecting the liquidity.
- Interest rates movements.
- Liquidity of the security/instrument.
- Maturity of the instrument.
- Ratings provided on the instrument by rating agencies approved by regulators.
- Any other factors relevant in the opinion of the Fund Management team.

The fund is likely to have higher maturity than a liquid fund, which means the fund may have higher allocation to 12-18 months instruments. Also, the fund will have a mix of credits with a moderately higher credit risk as compared to a liquid fund.

The scheme can also use derivatives to reduce the volatility and/or to enhance the portfolio returns.

xvi. Religare Active Income Fund

The fund management team will endeavor to meet the investment objective while maintaining a balance between safety, liquidity and profitability aspects of various investments. The Scheme will be actively managed and the fund management team will take an active view of the interest rate movements by keeping a close watch on various parameters of the Indian economy as well as the developments in global markets.

Investment views/decisions will be taken on the basis of the following parameters:

1. Prevailing interest rate scenario;
2. Quality of the security/instrument (including the financial health of the issuer);
3. Maturity profile of the instrument;
4. Liquidity of the security;
5. Growth prospects of the company/industry;
6. Any other factors in the opinion of the fund management team

The Fund will be actively managed rather than being a passive scheme i.e it would decide on the appropriate asset allocation depending on market conditions. The Fund has the discretion to take aggressive interest rate/duration risk calls and allocate assets accordingly. This could mean investing a large portion (up to 90%) of the net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk/duration risk), or on defensive considerations, entirely (up to 100%) in money market instruments. Accordingly the interest rate risk/duration risk on the scheme may change substantially depending upon Fund's call. The Scheme may have a high turnover in order to achieve the investment objective.

xvii. Religare Monthly Income Plan

Religare Monthly Income Plan seeks to generate regular income, provide adequate liquidity and attractive returns through an actively managed portfolio of debt, equity and money market instruments. The fund manager would invest in various debt instruments such as corporate and PSU bonds, CBL/Repo and money market instruments, which have low-to-medium risk profile. The fund manager would look forward to identifying securities, which offer superior yield at lower levels of risks. With a view to control risks, in-depth credit evaluation of the securities proposed to be invested will be carried out by the investment team. In addition, the fund manager will also study the macro economic conditions affecting liquidity and interest rates. To generate slightly higher than market

returns, the fund manager would take a small exposure to equity and equity related instruments or units of equity mutual fund schemes, which have high risk profile. The fund manager will adopt the bottom-up approach to select stocks. In addition, the fund manager will also take a top down view to manage investment risk.

xviii. Religare Monthly Income Plan (MIP) Plus

Religare Monthly Income Plan (MIP) Plus seeks to generate regular income, provide adequate liquidity and attractive returns through an actively managed portfolio of debt, money market instruments, equity and gold. The fund manager would invest a minimum of 65 percent of its assets in various debt instruments such as corporate and PSU bonds, CBLO/Repo and money market instruments, which have low-to-medium risk profile. (Exposure to debt and money market instruments would be in the range of 65%-90%). The fund manager would look forward to identifying securities, which offer superior yield at lower levels of risks. With a view to control risks, in-depth credit evaluation of the securities proposed to be invested will be carried out by the investment team. In addition, the fund manager will also study the macro economic conditions affecting liquidity and interest rates. To generate slightly higher than market returns, the fund manager would invest not more than 25 per cent of its assets in equity and equity related instruments and / or units of equity mutual fund schemes, which have high risk profile. The fund manager will adopt the bottom-up approach to select stocks. In addition to equity, the fund manager will also take a small exposure to gold by investing in Gold ETFs. Exposure to Gold ETFs will be in the range of 10 percent to 25 percent of the net assets of the Scheme.

xix. Religare Overnight Fund

The Fund would endeavor to provide high liquidity with safety to the investors. The corpus of the fund would be predominantly deployed in overnight instruments with some allocation to short term (up to 91 day maturity) money market and debt securities. The average portfolio duration shall normally be upto 15 days.

xx. Religare Credit Opportunities Fund

Portfolio construction is conducted on the basis of the desired level of credit exposure, based on top-down economic analysis and assessment of corporate credit risk. The Scheme shall seek opportunities in the rapidly increasing use of debt markets by corporates across the credit spectrum. The Fund focuses on enhancing the portfolio returns by identifying optimum credit opportunities in the market i.e. by investing in instruments that offer superior yield (vis-a-vis treasury bills) at acceptable levels of risk. The key element of this approach is having the ability to analyse and appropriately price credit risk for predominantly short dated securities. The Scheme may assume higher credit risk as compared to a scheme investing predominantly in AAA bonds / sovereign securities. The Scheme does not intend to take aggressive interest rate risk and would therefore primarily invest in short term securities. The value addition would be made by focusing on enhancing the portfolio returns by identifying mispriced credit opportunities in the market and selectively investing in them. The Scheme will invest only in debt instruments which are issued by a corporate whose debt programme is rated as 'investment grade' by a credit rating agency. These instruments may also be unrated in nature. The AMC will be guided but not limited by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time.

The Scheme shall be actively managed and the Fund Management team shall formulate view of the credit quality, interest rate movement etc. by monitoring various parameters of the Corporates/Indian economy, as well as developments in global markets. Investment views/decisions inter alia may be taken on the basis of the following parameters and which will be within the investment guidelines of the scheme.

1. Quality of the security / instrument (including the financial health of the issuer)
2. Returns offered relative to alternative investment opportunities
3. Maturity profile of the instrument
4. Prevailing interest rate scenario
5. Liquidity of the security
6. Any other factors considered relevant in the opinion of the Fund Management team.

xxi. Religare Gilt Fund

Primary goal of the fund manager is to seek to generate returns commensurate with minimal credit risk by investing in a portfolio comprising of securities issued and guaranteed by Central and State Government. The achievement of this goal depends mainly on the following factors:

- The magnitude of Government borrowing in a given fiscal year;
- The level of liquidity in the banking system;
- Economic growth; and
- The general outlook for interest rates.

The Fund may utilize derivatives as permitted by regulations in order to achieve its objective.

xxii. Religare Medium Term Bond Fund

The AMC aims to identify securities, which offer superior levels of yield while maintaining lower levels of risks. The Fund intends to optimize returns by keeping its portfolio duration upto 5 years.

The fund management team will take an active view of the interest rate environment by keeping a close watch on various parameters of the Indian economy, as well as developments in global markets.

Investment views / decisions will be taken on the basis of the following parameters:

1. Prevailing interest rate scenario;
2. Quality of the security / instrument (including the financial health of the issuer);
3. Maturity profile of the instrument;
4. Liquidity of the security;
5. Growth prospects of the company/industry;
6. Any other factors in the opinion of the fund management team.

With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. The credit evaluation includes a study of the operating environment of the company, the past track record as well as the future prospects of the issuer, the short as well as longer-term financial health of the issuer. The AMC will also be guided by the ratings of Rating Agencies such as CRISIL, FITCH, CARE and ICRA.

3. Risk Profile of Schemes

Risk Factors pertaining to all the Schemes:

A Requirement of minimum investors in the Scheme:

The Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. The two conditions mentioned above shall be complied with in each calendar quarter, on an average basis, as specified by SEBI. In case of non-fulfillment of the first condition i.e. 20 investors in the Scheme, on an ongoing basis for each calendar quarter as specified by SEBI, the Scheme would be wound up by following the guidelines prescribed by SEBI and Unitholders' investments will be redeemed at the applicable NAV. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the limit shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period.

B Risk Factors associated with investing in Equity & Equity Related Instruments:

Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity related instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic factors, general decline in the Indian markets or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme(s) may be adversely affected.

Further, Investments in Equity and Equity Related Instruments are risk capital and are subordinate in the right of payment to other securities, including debt securities.

Equity and Equity related instruments listed on the stock exchange carry lower liquidity risk, however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme(s) to make intended securities purchases due to settlement problems could cause the Scheme(s) to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the scheme(s), should there be a subsequent decline in the value of securities held in the Scheme's portfolio. Further, the volatility of medium/small - capitalization stocks may be higher in comparison to liquid large capitalisation stocks.

The securities which are not listed on the stock exchange are inherently illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor, including put option. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

C Risk Factors associated with investing in Fixed Income Securities:

In addition to the factors that affect value of securities, the NAV of the Units of the debt schemes will fluctuate with the movement in the broader fixed

income, money market and derivatives market and may be influenced by factors influencing such markets in general including but not limited to economic conditions, changes in interest rates, price and volume volatility in fixed income markets, changes in tax laws, currency exchange rates, foreign investments, political, economic or other developments. Further, the investments made by the debt schemes will also be affected by interest rate / price risk, credit risk or default risk, liquidity risk, reinvestment risk, settlement risk, risk associated with investments in derivatives.

D. Risks associated with investing in ADR/GDR and Foreign Securities:

To the extent the assets of the Scheme are invested in overseas financial asset, there may be risk associated with fluctuation in foreign exchange rates, restriction on repatriation of capital and earnings under the exchange control regulations and transaction procedure in overseas market. Investment in foreign securities carries currency risk. The exchange risk associated with a foreign denominated instrument is a key element in foreign investment.

E. Risks associated with investing in Derivatives:

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Other risks include risk of mispricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price.

F. Risks associated with investing in Securitised Debt involve interest rate risk, prepayment risk, credit or default risks. Further, Asset Backed Security (ABS) has structure risk due to a unique characteristic known as early amortization or early payout risk.

G. Risk Mitigation Measures:

Applicable to all open ended Debt Schemes:

Type of Risk	Risk Mitigation Measures
Volatility	By controlling class/ sector/ issuer exposures to debt & money market instruments to control overall portfolio volatility.
Concentration	By investing in various debt instruments such as corporate and PSU bonds, CBLO/ Repo and money market instruments of various issuers which will be from different industries/sectors.
Liquidity	Investments will be made in debt & money market instruments having adequate liquidity in the secondary market. Staggered maturity profile in the portfolio to take care of liquidity. Dynamic monitoring of liquidity depending on the interest rate view.

Applicable to all open ended Equity Schemes:

Type of Risk	Risk Mitigation Measures
Volatility	By monitoring sector / company exposure at portfolio level.
Concentration	By diversifying across stocks / sectors, concentration risk can be reduced. The fund manager will endeavor to build well diversified portfolios within the overall fund specific investment strategy, which will help in controlling concentration risk. The above is not applicable in case of Religare AGILE Fund and Religare Banking Fund.
Liquidity	The fund manager will control the liquidity at portfolio construction level.

H. Scheme Specific Risk Factors / Risk Mitigation Measures:

i. Religare Tax Plan

Risk Factors	By virtue of requirements under the ELSS, Units issued under RTP cannot be assigned/transferred/pledged/switched-out/redeemed until the completion of three years from the date of their allotment. The ability of an investor to realise returns on investments in the Scheme is consequently restricted for the first three years. Redemption will be made prior to the expiry of the aforesaid three year period only in the event of the death of a Unit holder, subject to the Units having been held for a period of one year from the date of their allotment.
---------------------	---

Risk Mitigation Measures	In the long term, equities typically tend to outperform other asset classes and the said lock-in period of 3 years is useful to realize the potential of equities.
---------------------------------	--

ii. Religare Arbitrage Fund

Risk Factors	No assurance can be given that fund manager will be able to locate investment opportunities or to correctly exploit price discrepancies in the capital markets. Reduction in mis-pricing opportunities between the cash market and future and options market may lead to lower level of activity affecting the returns. As the Scheme proposes to execute arbitrage transactions in various markets simultaneously, this may result in high portfolio turnover and, consequently, high transaction cost.
Risk Mitigation Measures	This investment strategy attempts to profit from the Cost of Carry between the cash markets and futures market. The Cost of Carry tracks short term interest rates and therefore, while the rate of return will vary, we expect that there will always be opportunities that can be exploited.

iii. Religare Contra Fund

Risk Factors	Since the Scheme has a contrarian style of investment, it might underperform the markets in scenarios of strong upward or downward cycles. The Scheme seeks to generate returns out of identifying themes and market segments that are likely to outperform in the future. This may or may not happen.
Risk Mitigation Measures	Religare Contra Fund invests in companies that are fundamentally sound, but generally are undervalued at the time of investment due to lack of investor interest. Our aim is to have a first mover advantage by investing early into 'out of favour' sectors/stocks. Over time, we believe that such early identification of opportunities will enable the fund to outperform.

iv. Religare Mid Cap Fund

Risk Factors	The mid cap stocks carry higher liquidity risk as they are less extensively researched compared to large cap stocks. This may lead to abnormal illiquidity and consequent higher impact cost.
Risk Mitigation Measures	Our investment process involves extensive in-house research on companies and we believe this mitigates the risk posed by lower liquidity of mid cap companies.

v. Religare AGILE Fund

Risk Factors	As the Scheme invests a higher percentage of its assets in a smaller number of securities, it carries concentration risk. The decline in the value of one equity share could have a greater negative effect on the Scheme. The model used by the Scheme relies extensively on past data which may not necessarily be the best indicator of the future. The turnover ratio of stocks in the fund may be higher than diversified equity mutual funds.
Risk Mitigation Measures	The fund is driven by a model with no human intervention. The concentrated nature of the fund is a source of upside and downside risk and is for investors who are comfortable with the same.

vi. Religare Banking Fund

Risk Factors	The Scheme being sector specific will be affected by the risks associated with the banking and finance sector.
Risk Mitigation Measures	The scheme will participate in both the upside risk and downside risk from the performance of the sector. Our stock selection process can improve the performance of the fund.

vii. Religare PSU Equity Fund

Risk Factors	In line with the investment objective, the Scheme will invest only in Equity and Equity Related Instruments of PSU companies and hence the Scheme will be affected by the policy of the government with respect to PSU companies.
Risk Mitigation Measures	The scheme will participate in both the upside risk and downside risk from the performance of PSU companies. Our stock selection process can improve the performance of the fund.

viii. Religare Infrastructure Fund

Risk Factors	The investments under the Scheme are oriented towards equity/equity related securities of companies belonging to the infrastructure industries and hence will be affected by risks associated with the infrastructure industries. The performance of the companies which form the investment universe of this scheme would be affected by the growth and performance of the infrastructure sector in the country.
Risk Mitigation Measures	The scheme will participate in both the upside risk and downside risk from the performance of the sector. Our stock selection process can improve the performance of the fund.

ix. Religare Mid N Small Cap Fund

Risk Factors	The mid and small cap stocks carry higher liquidity risk as they are less extensively researched compared to large cap stocks. This may lead to abnormal illiquidity and consequent higher impact cost.
Risk Mitigation Measures	Our investment process involves extensive in-house research on companies and we believe this mitigates the risk posed by lower liquidity of mid and small cap companies.

x. Religare Active Income Fund/ Religare Gilt Fund

Risk Factors	As the portfolio of the Scheme(s) will be actively managed, the Scheme may have a high turnover in order to achieve the investment objective.
Risk Mitigation Measures	The portfolio will be actively managed. Based on the interest rate view, shape of the yield curve and the spread between the corporate bonds and gilt securities, the Duration and asset allocation of the portfolio will be dynamic. This could lead to high turnover in the portfolio to help achieve the investment objective of the scheme.

xi. Religare Monthly Income Plan (MIP) Plus

Risk Factors	As the Gold Exchange Traded Funds (Gold ETFs in which the Scheme will invest) will be investing in physical gold and gold related instruments, the NAV of the underlying scheme as well as this Scheme will react to the price of gold. The price of gold may vary for several reasons and all such fluctuations will result in changes in NAV of the units of underlying scheme as well as this Scheme. The prices of gold may be affected by several factors such as demand and supply of gold in India and in the global market, change in political, economical environment and government policy, inflation trends, currency exchange rates, interest rates, perceived trends in bullion prices, restrictions on the movement/trade of gold by RBI, GOI, etc. Absence of adequate liquidity of Gold ETFs units on the stock exchange(s) may impact the cost of purchasing and selling the units of Gold ETFs.
Risk Mitigation Measures	Units of Gold ETFs are listed on stock exchange(s) and traded in round lots of 1 unit. In addition to liquidity on the stock exchange(s), units of Gold ETFs can also be subscribed and redeemed directly with mutual fund (in minimum units size) and hence, liquidity risk is low in case of Gold ETFs. Also the Scheme will have a small exposure to equity and equity related instruments of companies across sectors / market capitalization to avoid concentration risk.

4. Dividend Policy:

Under the Dividend Option, the Trustees may declare the dividend subject to availability of distributable surplus calculated in accordance with SEBI (Mutual Funds) Regulations, 1996. The actual declaration of dividend and frequency will inter-alia, depend on availability of distributable surplus calculated in accordance with SEBI (Mutual Funds) Regulations, 1996 and the decisions of the Trustees shall be final in this regard. Dividends, if declared, will be paid (subject to deduction of tax at source, if any) to those Unitholders whose names appear in the register of Unitholders on the notified record date.

There is no assurance or guarantee to the Unitholders as to the rate of dividend nor that the dividend will be paid regularly.

In all the Open ended Schemes (except Religare Tax Plan), if dividend payable under Dividend Payout option is equal to or less than Rs. 500/- then the dividend would be compulsorily reinvested. For Religare Monthly Income Plan and Religare Monthly Income Plan (MIP) Plus, if dividend payable under Dividend Payout option is equal to or less than Rs. 250/- then the dividend would be compulsorily reinvested.

With regard to Unitholders who have opted for Dividend Reinvestment facility, the dividend due will be reinvested by allotting units for the dividend amount at a price based on the prevailing ex-dividend NAV per unit on the record date.

The AMC shall dispatch to the Unitholders, the dividend warrants within 30 days of the date of declaration of dividend.

5. Transaction Charges

In terms of SEBI circular no. IMD/DF/13/2011 dated August 22, 2011, a transaction charge, as follows, is payable to distributors:

- For existing investor in a Mutual Fund: Rs.100/- per subscription of Rs.10,000/- and above.
- For first time investor in Mutual Funds: Rs.150/- per subscription of Rs.10,000/- and above.

In case of SIPs, the transaction charge shall be applicable only if the total commitment through SIPs amounts to Rs. 10,000/- and above. The transaction charge shall be recovered in 3-4 installments, as may be decided by Religare AMC.

However, there will be no transaction charge on:

- Subscription of less than Rs. 10,000/-;
- Transactions other than purchases / subscriptions relating to new inflows;
- Direct subscription (subscription not routed through distributor);
- Subscription routed through distributor who has chosen to 'Opt-out' of charging of transaction charge.
- Transactions routed through Stock Exchange(s).

The transaction charge, if any, will be deducted by Religare AMC from subscription amount and shall be paid to distributor. The balance subscription amount, after deducting applicable transaction charges, will be invested.

It is clarified that upfront commission to distributor will continue to be paid by the investor directly to distributor by a separate cheque.

6. Load Structure:

In terms of SEBI circular no. SEBI/IMD/CIR No.4/168230/09 dated June 30, 2009, no entry load will be charged on purchase / additional purchase / switch-in.

The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

INSTRUCTIONS TO FILL THE FORM

1. GENERAL INSTRUCTIONS

- Please read the Statement of Additional Information, Key Information Memorandum and the Scheme Information Document(s) containing the terms of offer carefully before investing. In the Scheme Information Document, your attention is particularly drawn to the risk factors of investing in the scheme and also the sections "Who cannot invest" and "Important note on anti-money laundering, KYC & investor protection".
- All applicants are deemed to have accepted the terms subject to which the offer is being made and bind themselves to the terms upon signing the Application Form and tendering the payment.
- Application Form should be filled legibly in **ENGLISH** in **BLOCK** letters using Black or Dark Blue ink. Incomplete application forms are liable to be rejected. Please refer to the checklist at the end of these notes to ensure that the requisite details and documents have been provided in order to avoid unnecessary delays and / or rejection of your application.
- Please strike out any section that is not applicable. Cancellation/white-ink on any of the mandatory information should be countersigned.
- Applications can be submitted at any of the Official Points of Acceptance of the AMC / Registrar.

2. APPLICANT INFORMATION

- Name should be given in full without any abbreviations. Preferably write exactly as it appears in your bank account or as it appears in the incorporation document as the case may be. In case, units are applied for electronic mode (Demat mode), please write the name exactly in the same order as it appears in depository records.
- In case investment is 'On behalf of Minor':
 - Name of the Guardian must be mentioned if the investments are being made on behalf of the minor. Guardian in the folio on behalf of minor should either be a natural guardian (i.e. father or mother) or a Court appointed legal guardian. A document evidencing the relationship should be submitted if the same is not available as part of the documents stated in point 3 below.
 - The minor shall be the first and sole holder. There shall not be any joint holder where minor is the first holder.
 - Date of birth of minor along with the photocopy of following supporting documents shall be mandatory while investing on behalf of minor:
 - Birth certificate of the minor; or
 - School leaving certificate / Mark sheet issued by Higher Secondary Board of respective states, ICSE, CBSE etc.; or
 - Passport of the minor; or
 - Any other suitable proof evidencing the date of birth of the minor.
- Name of the Contact Person, email and Telephone no. should be mentioned in case of investments by Company, Body Corporate, Trust, Society, FII and other non-individual applicants.
- Your complete postal address should be stated. P.O. Box address alone is not sufficient. NRIs / FIIs should necessarily state their overseas address failing which application will be rejected. In addition, Indian address (if available) may be stated for correspondence. It should be noted that NRI residents in any Financial Action Task Force non-compliant countries or territories cannot invest in the schemes.
- In case of NRI / FII investors, the Account Statements / Allotment Advice / Redemption cheques / other correspondence will be sent to the mailing address mentioned.
- Please fill in your date of birth as this may be required for validating your identity for certain transactions / communications.
- If you have an email ID, please provide the same, this will help us send investment / product related communication and resolve any queries more promptly.
- In case of applications for units in non demat mode, made in joint names without indicating the mode of holding, mode of holding will be deemed as 'Any One or Survivor' and processed accordingly. All communication and payments shall be made in the name of and favouring the first applicant (in case of joint holders).

3. PAN (Permanent Account Number):

It is mandatory for all existing and prospective investors (except for Micro SIP investors) irrespective of the amount of purchase* (including joint holders, guardians of minors and NRIs) to enclose a copy of PAN card duly self certified along with the original PAN Card. The original PAN Card will be returned immediately across the counter after verification. In case minor does not possess his/her own PAN, the PAN of his/her father or mother or the guardian, as the case may be, should be quoted. In the absence of this, your application will be rejected. However, applicants resident in the state of Sikkim, Central Government, State Government, officials appointed by the courts e.g. official liquidator, court receiver etc. (under the category of Government) are exempted from the mandatory requirement of PAN for transacting in securities market. This would be subject to collecting necessary documentary evidence by the AMC/Fund to verify the veracity of the claim.

* (includes fresh / additional purchase, switch, systematic transfer and dividend reinvestment)

4. BANK ACCOUNT DETAILS

As per SEBI Guidelines, it is mandatory for the Sole / First Applicant to provide the bank account details in the application form.

Applications received without the bank details will be deemed to be incomplete and liable for rejection. The Mutual Fund reserves the right to hold the redemption proceeds in case the requisite details are not submitted.

To enable verification of the bank mandate details and ensure expeditious clearing, the 9-digit MICR (Magnetic Ink Character Recognition) number appearing to the right of the cheque number on the bottom white strip of the cheque leaf should be provided. The AMC may ask for a copy of a cancelled cheque to verify these details.

IFSC is a 11 digit number given by some of the banks on the cheques. IFSC will help to secure transfer of redemption and dividend payouts via the various electronic mode of transfers that

are available with the banks.

Investors opting to hold units in Demat mode should furnish Bank Account details linked with their Demat Account. In case the bank details provided in the application form don't match with the bank details in the Depository records, bank details as available in the Depository records shall be deemed final.

In addition to the above, investors are also requested to enclose a cancelled cheque leaf (or copy thereof) where investment instrument is not from the same bank account as is mentioned in the Application Form.

In case of change in bank mandate, change will be effected for the folio and not for individual scheme.

5. INVESTMENT DETAILS

- Applicants are required to fill a separate form for each scheme
- Scheme, Plan, Option, Facility of the scheme should be clearly stated
- In case applications are received where plan/option/sub-option for investment is not selected, the default option/sub-option as prescribed in the SID of the relevant scheme will be applicable.
- For minimum application amount please refer to the Scheme Ready Reckoner on page no. 24.

 - a) Payment by Parents/Grand-Parents/Related Persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000/- (each regular purchase or per SIP installment);
 - b) Payment by employer on behalf of employee(s) through payroll deductions;
 - c) Custodian on behalf of a Foreign Institutional Investor (FII) or a client.

***Related Person** means any person investing on behalf of a minor in consideration of natural love and affection or as a gift.

'Third-Party Payment' means a payment made through instruments issued from a bank account other than that of bank account of first named applicant/investor or a joint bank account where the first named unit holder/investor is not a one of the joint holders of bank account from which payment is made.

In each of the exceptions mentioned above, investors is required to attach following mandatory documents without which application for subscription to units will be rejected:

- a) KYC of all the investors (guardian in case of minor) and KYC of person making the payment i.e. parent, related person, employee, custodian.
- b) Third Party Declaration from the investors and the person making the payment (Third Party)

It is mandatory for investor to mention details of bank account from where payment for subscription is made in **point 2** of application form. Further the name of first unit holder/ applicant should be pre-printed as one of the holders on payment cheque. In case, name of first unit holder/ applicant is not pre-printed on cheque, the investor should submit copy of bank statement or pass book showing account number, account holders' name and address or a original letter from the bank certifying that the investor maintains a bank account with the bank and mentioning the details like bank account number, branch address, account type and IFSC code, if any, of the branch. Originals of the bank statement / pass book should be produced for verification and the same will be returned across the counter after verification;

In case payment is made through pay order, demand draft, banker's cheque etc., an investor should submit a certificate (in original) from issuing bank as a proof of debit of investor's bank account with details of account holders' name, bank account number which has been debited for issue of payment instrument and PAN as per bank records, if available or a copy of the acknowledgement from the bank, wherein the instructions

to debit carry the bank account details and name of the investor as an account holder are available or a copy of the passbook/bank statement evidencing the debit for issuance of a DD. In case of RTGS, NEFT, ECS, bank transfer etc., the investor should submit an acknowledged copy of the instruction to bank stating the account number to be debited.

Demand draft, pay order, banker's cheque purchased against cash of Rs. 50,000/- or more will not be accepted. Such purchase application (for amount less than Rs. 50,000) should be accompanied with a banker's certificate stating the investor's Name, bank account number and PAN as per bank record, if available, is a must.

The bank account number mentioned in the certificate/ instructions must be the bank account which is registered with the Fund or the first named applicant/investor should be one of the holders of the said bank account.

Please refer to Statement of Additional Information for a facility of multiple Bank Accounts registration in a folio.

Certificate from Bank should be signed by the authorised person of the issuing bank mentioning his name, employee code, contact details and bank seal.

9. E-MAIL COMMUNICATION

Account Statement / Allotment Advice, Annual Report, other information etc. can be sent to unitholders by e-mail. If you have an e-mail address you can choose to receive e-mail communication from us in lieu of printed documents.

Please furnish your e-mail ID and indicate the nature of communication you wish to receive over email.

When an investor has communicated his / her e-mail address and has provided consent for sending communication only through email, the Fund / Registrars are not responsible for email not reaching the investor and for all consequences thereof. The investor shall from time to time intimate the Fund / its transfer agents about any changes in the email address. In case of a large document, a suitable link would be provided and investor can download, save and print these documents. However, investor always has a right to demand for a physical copy of any or all of the service deliverables and the fund would arrange to send the same to the investor.

10. DIRECT CREDIT OF REDEMPTION/DIVIDEND PROCEEDS

If the investor has provided sufficient details for electronic credit, the Fund will give direct credit for redemption/dividend proceeds into the investor's bank account and such instruction will be adequate discharge of the Fund towards the said payment. In case the credit is not effected by the Unitholder's banker for any reason, the Fund reserves the right to make the payment by a cheque/Demand Draft. If the direct/electronic credit is delayed or not affected or credited to a wrong account, on account of incomplete/incorrect information, the Fund will not be held responsible. If however, you wish to receive a cheque payout, please tick in the space provided in the application.

11. NOMINATION DETAILS

Applicants applying for units singly / jointly can make a nomination at the time of initial investment or during subsequent investments / during the tenure of the investment.

If you wish to register a single nominee for your investments please fill in the nomination details in the Application Form. In case you wish to register multiple nominees, please download nomination form available on our website or at any Religare Investor Service Centers.

- (a) Nomination will be mandatory for new folios opened by individual especially with sole holding. Even those investors who do not wish to nominate must sign separately confirming their non-intention to nominate. However, the nomination facility is not available in a folio held on behalf of a minor. The nomination can be made only by individuals applying for / holding units on their own singly or jointly. Non-individuals including society, trust, body corporate, partnership, Karta of Hindu Undivided Family (HUF), holder of Power of Attorney cannot nominate. If the units are held jointly, all joint holders will have to sign the nomination form, even if the mode of holding is not "joint".
- (b) A minor can be nominated and in that event, the name & address of the guardian of the minor nominee shall be provided by Unitholder.
- (c) Nomination can also be made in favor of the Central Government, State Government, a local authority, any person designated by virtue of his office or a religious or charitable trust.
- (d) The nominee shall not be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of HUF, or a power of Attorney holder. A non-resident Indian can be a nominee subject to the exchange controls in force from time to time.
- (e) A maximum of three nominees can be registered for a folio. Nomination shall be maintained at the folio level. The AMC reserves the right to offer nomination facility at a scheme level in a folio.
- (f) In case of Multiple nominees, it is mandatory to indicate clearly the percentage of allocation / share in favor of each of the nominees against their name and such allocation / share should be in whole numbers without any decimals making a total of 100 percent.
- (g) In the event of the Unitholders not indicating the percentage of allocation / share for each of the nominees, then by invoking default option RAMC shall settle the claim equally amongst all the nominees.
- (h) Nomination in respect of the units stands rescinded upon the redemption / transfer / transmission of units.
- (i) Transmission of units will be done as per the Nomination/s registered subject to verification of Identity of Nominee/s, PAN, Bank Mandate etc.
- (j) Transfer of units in favor of the Nominee / Nominees shall be a valid discharge by the Asset Management Company against the legal heir.
- (k) The cancellation of nomination/s can be made only by those individuals who hold units on their own behalf singly or jointly and who made the original nomination/s. On cancellation of the nomination/s, the nomination/s shall stand rescinded and the AMC / Fund / Trustees shall not be under any obligation to transmit the units in favor of the Nominee/s.
- (l) Every new nomination for a folio will overwrite the existing nomination. These instructions are subject to SEBI Regulations / applicable laws.

In case of units held in demat mode, the nomination details provided to the Depository Participant shall be applicable.

12. DEMATERIALIZATION

The unit holders would have an option to hold the units in dematerialized form. The applicant intending to hold units in dematerialized form will be required to have a beneficiary account with a Depository Participant (DP) of the NSDL/CDSL and will be required to mention in the application form, DP ID and Beneficiary Account No. with the DP name at the time of subscribing to the units of the respective Scheme(s). Applicants must ensure that the

sequence of the names as mentioned in the application form matches with that of the beneficiary account held with the Depository Participant. Names, Address, PAN details, KYC Details etc. mentioned in the application form will be verified against the Depository data. **If the details mentioned in the application are incomplete / incorrect or not matching with the depository records, the application shall be treated as application for non-demat mode and accordingly units will be allotted in non-demat mode.** Subscription in Demat mode is not available for subscription through SIP and for Plans/Options where dividend distribution frequency is less than 1 month.

Unit holders who have opted to hold units in dematerialized form will receive payment of redemption / dividend proceeds into bank (i.e. beneficiary) account linked to their Demat account.

Units held in demat form are freely transferable from one demat account to another demat account. However, restrictions on transfer of units of Equity Linked Saving Schemes (ELSS) during lock - in period shall continue to be applicable as per the ELSS guidelines.

13. PERSONAL IDENTIFICATION NUMBER (PIN)

The PIN facility is available to the Unitholders. Unitholders will be required to indicate their requirement and complete necessary documentation as may be required. The Registrar and Transfer Agent on receipt of this request, will mail to such Unitholders, the 'Disclaimer Form' together with detailed terms and conditions subject to which its usage will be permitted. On receipt of the 'Disclaimer Form' duly signed by the Unitholder, the PIN will be mailed to each Unitholder. Unitholders may use the PIN to conduct such transactions as offered by the Mutual Fund from time to time. The Unitholder will be asked for the PIN before the request is accepted. In the interest of the Unitholder, the Registrar and Transfer Agent reserves the right to ask for a fax confirmation of the request and any other additional information about the account of the Unitholder.

The PIN should never be disclosed to any person or written down where any other person may discover it. All transactions conducted with use of this PIN will be the responsibility of the Unitholder and the Unitholder will abide by the record of the transactions generated. The Mutual Fund and the ISC/Registrar and Transfer Agent shall not accept any responsibility for the unauthorised use of the PIN.

14. PREVENTION OF MONEY LAUNDERING AND KNOW YOUR CUSTOMER (KYC)

To ensure appropriate identification of the investor and with a view to monitor transactions for the prevention of money laundering as prescribed by the Prevention of Money Laundering Act, 2002, the AMC reserves the right to:

- Scrutinize and verify the identity of the investor, Unitholder, person making the payment on behalf of the investor and the source of the funds invested/ to be invested in Religare Mutual Fund;
- Reject any application;
- Prevent further transactions by a Unitholder;
- To mandatorily redeem the units held by the Unitholder at the applicable NAV prevalent at the time of such redemption; and
- Report cases to the Specified Director appointed by the Central Government, pertaining to a single transaction exceeding Rs.10 lacs or series of transactions integrally connected or remotely connected or related to each other which are valued below the prescribed value of Rs. 10 lacs within a month.

15. KNOW YOUR CUSTOMER (KYC) REQUIREMENTS

KYC is mandatory for applicants for subscription in the schemes of Religare Mutual Fund. The applicants for the purpose of KYC Compliance shall include (a) their constituted Power of Attorney (PoA) holder in case of investments through a PoA; (b) each of the applicants in case of investments in joint names; and (c) guardian in case of investments on behalf of minor. The applicants residing in Sikkim shall not be required to submit KYC Acknowledgement along with application. Such applicants should submit proof of address of the Sikkim state to the AMC and such address should be mentioned in the application form as address of the applicant. The address proof submitted to AMC should be self attested by the investor

or attested by the ARN holder mentioning the ARN number or attested by any competent authority.

CDSL Ventures Limited (‘CVL’) has been appointed by the mutual fund industry to complete KYC formalities on their behalf and hence investors need to submit their details only once for completion of KYC formalities across these mutual funds. KYC requirements can be completed by filling up the prescribed form and submitting the same along with the other requisite documents / proofs to CVL through a designated Point of Service (PoS). For detailed process and list of PoS, please visit our website www.religaremf.com. Any subsequent change in address, Pin Code, Country, Nationality, Occupation, Income Details, Date of Birth, Proof of Identity must be communicated to CVL through a PoS. KYC Compliant investors need to ensure that any change of address details is registered with CVL before redeeming units. Registrar will not act upon address change requests directly received from KYC Compliant investors. The existing investor data for investor address (both Indian and foreign), pin code, country, nationality, occupation, income details, date of birth, document provided as proof of identity will be overwritten by the Registrar with data obtained from CVL. A folio in which any one or more of the holders are found to be non KYC compliant, in such folios further subscriptions/systematic purchases will not be permitted except for micro SIP (s).

All investors must attach their KYC Acknowledgement (except for micro SIP (s)) along with the Investment Application Form(s) / Transaction Slip(s) while investing in the schemes of Religare Mutual Fund, irrespective of amount of purchase. Application Forms / Transaction Slips not accompanied by KYC Acknowledgement are liable to be rejected. KYC Compliance status will be updated for all folios in which investor is a holder in any capacity.

KYC status will be validated with the records of CVL before allotting units. Applications without valid KYC compliance will be rejected.

Where investor intends to hold units in dematerialised mode, KYC performed by Depository Participant will be considered compliance with applicable requirements specified in this regard in terms of SEBI circular ISD/AML/CIR-1/2008 dated December 19, 2008.

16. PURCHASE/REDEMPTION OF UNITS THROUGH STOCK EXCHANGE INFRASTRUCTURE:

Investors can purchase and redeem units of the following schemes on Mutual Fund Services System (MFSS) of the National Stock Exchange of India Ltd. (NSE) and on the BSE Stock Exchange Platform for Allotment and Repurchase of Mutual Funds (BSE StAR MF System) of Bombay Stock Exchange Ltd. (BSE):
